Dates: see courses calendar on main page – www.q4it.eu

Places: Brno, Prague, Ostrava

Target group: CIO, Chief Technology Officer, manager, team leader, designer, architect, planner, IT consultant, IT audit manager, IT security manager or ITSM trainer or a member of the supervisory staff, IT operation manager, Service Desk manager. Your role involves dealing with or being responsible for Service Operation.

Prerequisites: The certificate is a follow-on after gaining the ITIL® Foundation in Service Management. Candidates followed training with an EXIN-accredited trainer.

Course learning objectives: This qualification presents a complete overview of CSI including all its related activities: to continually align and realign IT services to changing business needs by identifying and implementing improvements to IT services that support business processes. This qualification reviews improvement activities as they support the lifecycle approach through service strategy, service design, service transition and service operation.

Course agenda:

- Introduction to CSI
- CSI principles - CSI and organizational change, Ownership and accountability, CSI register, Service level management and CSI, Knowledge management and CSI, The Deming Cycle, Service measurement, Governance
- CSI process - Purpose, objectives and scope of 7-Step Improvement Process
- CSI methods and techniques - Gap analysis, Benchmarking, Service measurement, Scorecards and reports, Balanced Scorecards, SWOT analysis, Creating ROI
- Organizing for CSI
- Technology considerations
- Implementing CSI
- Challenges, critical success factors and risks
