

Certified DCMM Expert course

Expert level of DCMM management level, from theory to practical use

Course length: 4 days

Date, place: see details [here](#)

Course description: Course is targeted IT managers and CIOs who will use DCMM for modernisation of IT management practices

Prerequisites: No pre-requisites, recommended self-study book DCMM : Digital Capabilities Management Model, ISBN: 9781723571923.

Target group: This course is targeted to experienced IT managers, team leaders, CIOs, IT governance specialist. Course is also suitable for consultants who are aiming to guide their clients through digital transformation driven by DCMM logic and management patterns.

Learning objectives: Course participants will learn from theory of collaboration inside organisations, fundamentals of complex system theories to managing IT with DCMM logic and new management patterns. Course participants will gain knowledge how to balance autonomy of acting and making decisions where information is not complete, how to adaptively manage through complex chains of activities, how RBA and ADRA is supporting decision making and visualise resource and benefits balances. Course is designed to discontinue perception of colleagues as customers, where Customer Experience is transformed to Collaboration Experience, as inside organisation everyone collaborates.
